Jap Arrested-Wanted by Creditors in Salt Lake-Junction City News

Last evening Captain Brown and Detective Pender arrested a Japanese who is wanted in Salt Lake. He gives his name as Harra Oka. He, with two other Japs, were running a restaurant in Salt Lake, and one morning last week the manager was missing and a number of patrons of the eating house who had bought meal tickets, were mourning his departure, but the Palace meat market was the principal looser, he having bought meats from them for over \$150, which he skipped out with-out paying and they reported the mat-ter to the Salt Lake police, who gave his description to the Ogden officers.

Big Profits in Fruit Growing County Board of Horticulture, Special Correspondence.

Farmington, Davis Co., June 25 .- Secy. Jos. H. Parry of the state board of horticulture, has been visiting this county in the interest of fruit growing the past two days. He finds that though much is being done in commercial fruit growing in the north end of the county, small mixed orchards are the rule in the south end, with much land devoted to truck gardening that would pay twice the profits if grown to fruit. When fruit growing, requiring no more labor or irrigating water than gar-den truck growing, can be made to pay

vis county orchards this spring, and the presence of the noisome pests has con-vinced the people of the utility of spray-ing. Many held the insects in check by spraying with Paris green and the arsenical mixtures, but too many neglected to do this and as a consequence the

pests spread everywhere.

A great drawback to the fruit industry of Davis is the old neglected apple orchards, which should be cleaned up-root and branch and destroyed. The land is too valuable to be held by such insect and disease breeding remnants of the orchards of long ago.
In the newer fruit plantations the out-

look for fruit is very promising in Da-vis. As a rule the new orchards are kept clean and thriffy, and in consequence will yield handsome returns, but many of the old orchards are badly neglected and the fruit from them will

barely pay taxes.
At Centerville Mr. Alwood Brown owns the prize cherry orchard of the state, a solid block of six acres. Although but a young orchard, the owner realized nearly \$300 an acre from it last year, and this year he expects to do better than that, as the trees are covered with fruit. The orchard is kept in splendid tilth, being cutlivated nearly every week till the fruit natures, and not a weed or spear of grass is allowed to grow in this orchard, which now presents a beautiful sight, loaded with handsome fruit.

Mr. Parry of the state board of horti-

culture called on the county commisculture called on the county commissioners a week or more ago and talked with them on the fruit situation of the county and also on the need of a county board of horticulture, meeting with a very favorable response. A petition has been presented to them by the leading fruit growers of the county, asking for this appointment, and it is expected that the appointment will be made the first Monday in July. first Monday in July.
